

Dongyao Company Profile

An overview of our conductor product focus, manufacturing support, quality approach, and export service.

COMPANY OVERVIEW

Built for reliable conductor supply

Wenzhou Dongyao Trading Co., Ltd. supports B2B buyers with copper and aluminum conductive materials, busbars, neutral bars, and drawing-based components. Our work is organized around clear requirement review, practical processing support, inspection, packing, and repeat-order communication.

01

Product Focus

Copper busbars, plates, rods, aluminum busbars, neutral bars, and custom conductive parts.

02

Engineering Communication

Drawing, sample, dimension, material, finish, tolerance, and application review.

03

Supply Coordination

Quotation preparation, sample discussion, batch planning, packing, and delivery follow-up.

04

Working Principle

Quality first, integrity-based, customer-oriented, and long-term cooperation.

Development focus

From material sourcing and standard conductor supply to drawing-based processing, export coordination, and repeat supply support.

CAPABILITIES AND SERVICE

Practical support across the order

Manufacturing Support

Cutting, punching, drilling, bending, simple machining, and custom shapes according to confirmed requirements.

Quality Monitoring

Incoming material checks, in-process review, final dimensions, product identification, and packing confirmation.

Technical Support

Application, drawing, sample, material, finish, and connection detail discussion before quotation.

After-Sales Review

Issue review based on the confirmed specification, order records, photos, storage, handling, and use conditions.
